Loop Vanity single washbasin

Loop Vanity double washbasin

### Loop Vanity presents unique washbasin design

Villeroy & Boch's Loop Vanity washbasin is a unique, elegant design, set to make its mark on Australian bathrooms in 2009.

The striking design element of Loop Vanity is the ellipse – particularly arresting on the double washbasin – which helps to prevent water from splashing onto the surface. Combining functionality and style, it makes the washbasin an instant stand-out piece.

The ceramic cover of the outlet valve matches the colour and material of the washbasin for a smooth continuous aesthetic. Alternatively, a chrome waste is available featuring a spring which pops up and captures the water within the basin.

Loop Vanity also offers a generous surface area – ideal for creating further individuality with a selection of accessories.

Loop Vanity is available in three sizes – 800mm, 1000mm and 1300mm. The 1300mm size is a double washbasin with just one waste outlet in the centre.

Villeroy & Boch's washbasins are available with the company's exclusive Ceramicplus finish, providing a surface which is easy to maintain and keep clean. Ceramicplus causes water on the surface of the washbasin to form droplets which then roll off the surface and down the plug hole taking lime and dirt residue with them. Ceramicplus offers environmental benefits by eliminating the need for aggressive cleaning agents.

The Villeroy & Boch Loop Vanity washbasin is priced from \$999.
