Variable double washbasin

Double washbasin for the efficient family bathroom

The family bathroom is always a hive of activity, particularly in the morning as parents and children vie to get in first to ensure they make it to work or school on time.

A practical solution designed to help the bathroom work more efficiently is the double washbasin, which provides the extra space and functionality needed for two people to get ready at the same time.

However, while traditionally this requirement has been met by mounting two matching single washbasins next to each other, premium European brand Villeroy & Boch has recognised the need to offer a full range of double washbasins. With their popularity growing, the double washbasin offers the contemporary family home a well-designed, slick alternative.

This can take the form of a minimalist design where the washbasin is mounted onto the wall with no surrounding cabinetry. Alternatively, the washbasin might be mounted on top of a matching vanity unit, achieving a smart aesthetic while not compromising on storage space.

Villeroy & Boch offers a variety of double washbasins, all practically designed and infusing a touch of elegance to the family bathroom. Ranges include Subway, Variable, Memento and Loop Vanity.

Villeroy & Boch's double washbasins are also available with the company's exclusive ceramicplus surface finish. With a proven dirt-repellent quality, ceramics stay cleaner on a permanent basis. Its exceptional easy-care properties also minimise the need for expensive and ecologically harmful cleaning agents - even lime deposits are easily removed.
