### **New Squaro bath has aesthetic appeal**

The new Squaro bath design from Villeroy & Boch combines elegant straight lines with a curved interior for smart modern bathrooms.

Available in two sizes - 180x80cm and 170x75cm - Squaro's spacious interior dimensions coupled with a luxurious sloped headrest create the ideal bath in which to relax and indulge. Featuring a central outlet enabling the user to sit in comfort at either end of the bath, Squaro can be fitted with a variety of extra features such as the new Whisper™ Whirlpool system for a complete and indulgent wellness experience.

Ideal for a minimalist bathroom scheme, Squaro is particularly popular among specifiers and architects looking to fit out luxurious hotel bathrooms. Naturally, many people want to replicate the same luxury hotel feel in their own home.

As with all Villeroy & Boch baths available in Australia, the new Squaro bath is made from the exclusive Villeroy & Boch material Quaryl. This innovative material offers numerous practical advantages from simple installation to optimum comfort and easy care. Quaryl affords excellent heat retention and grants a high level of slip resistance. It provides baths with increased protection against scratches and a pore-free surface preventing the build up of dirt, making them easier to clean. In terms of appearance, it enables the bath to be installed flush with the tiling minimising any visible joining.
