New Glory adds glamour to bathrooms

Exuding luxury and opulence, Villeroy & Boch's Memento New Glory washbasin is a unique interpretation of the current neo-baroque trend.

Reflecting the sumptuous splendour of times past, the arresting design combines the smooth, straight lines of the Memento washbasin with an intricate filigree floral pattern. The matt design contrasted against the glossy white finish of the washbasin creates a dramatic effect and instills a unique sophistication in the bathroom.

The New Glory design is available as a wall-mounted washbasin in a 50cm, 60cm, 80cm or 120cm size, offering a variety of options to suit both large and small bathrooms and numerous design schemes. New Glory is also available as a counter-top washbasin in a 50cm and 60cm size allowing it to sit on the surface of a vanity unit or bench.

Memento washbasins feature Villeroy & Boch's exclusive Ceramicplus® finish providing a surface which is easy to maintain and keep clean. Ceramicplus® causes water on the surface of the washbasin to form droplets which then roll off the surface and down the plug hole taking lime and dirt residue with them. Ceramicplus® is particularly easy to clean offering environmental benefits by eliminating the need for aggressive cleaning agents.

The Villeroy & Boch Memento New Glory washbasins are priced from \$849.
