Separate Rough In and Fit Off Kits available
01018-7524RI Rough In Kit
7524-01018FO Fit Off Kit

LEARN MORE

SPACE SAVING DESIGN

The O.novo Urinal's space-saving design is suitable for even the smallest of bathroom spaces. A depth of only 320mm and width of 335mm promotes easy traffic flow inside the bathroom. The O.novo Urinals slim design has a total body height of 555mm, catering perfectly to reduced height installations where required, eliminating the need to source additional built-for-purpose hardware.

STADIUM MODE & STAGNATION FLUSH

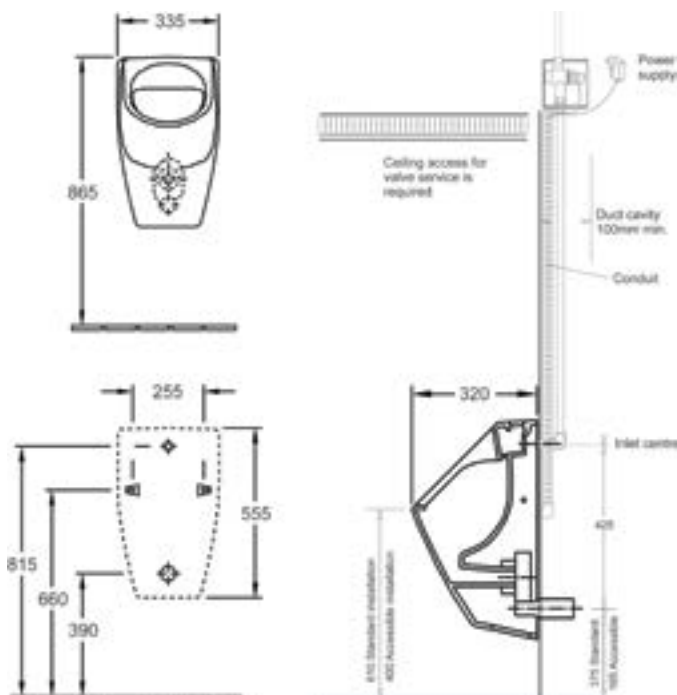

Avoid the massive water bill during peak times with Stadium Mode.

Stadium mode will automatically commence when there are over three uses in four minutes.

Stadium Mode will finish after no use is detected for five minutes.

When in Stadium Mode, the Urinal is automatically flushed once per minute.

If no use is detected in 24 hours, a stagnation/hygiene flush will be performed.

ADDITIONAL FEATURES

- 10 Year Warranty for O.novo Urinal.
- 2 Year Warranty for Schell Radar 6 Star Urinal Flush Valve.
- Urinal factory fitted and tested with Schell Valve Sensor.
- Has Integral Air Break.
