

## INSTALLATION TIPS

### CARE + MAINTENANCE

Care must be taken to dry any spillage or leakage of water which may gain access to furniture. It is recommended that vanities are installed to avoid splashes from wet areas such as baths, spas and showers.

All wood composite veneers and polyurethane lacquer are water resistant only. To ensure the quality of finish is maintained, wipe up all spills with a clean lightly moistened cloth as soon as they occur. Use only a soft cloth, or a weak solution of non-abrasive detergent. Do not expose to excessive heat e.g. from hot hair styling equipment or naked flames.

To restore accidental scratches, burns etc. on two pack polyurethane parts or acrylic tops, rub gently with car cutting compound, car polish or household brass/silver cleaner.

To restore accidental scratches, burns etc. on veneer parts, paint with similar coloured wood restoration pens, let settle for one minute and wipe off excess with soft cloth.
