Features & Benefits

Premium Construction Methods & Components

Argent Furniture is 100% designed, developed, and manufactured in Australia. Each piece of furniture is created with a 16mm solid back. This speaks to the stability of the entire vanity, and ensures that each vanity can be safely mounted on a wall.

Each vanity is constructed with a tongue and groove joint, which means that each cabinet has exceptional strength and durability – which is particularly important for a wall mounted vanity. The tongue and groove joints prevents the sides of the vanity from pulling away from the back when pressure is placed on the top bench.

Each vanity is also constructed with specially designed internal metal brackets, which are neat, strong, and more attractive than staple blocks.

To ensure high-quality and durability, Argent Furniture is manufactured with FSC certified moisture resistant (MR) board. This type of board cannot swell or attain damage from moisture, meaning your vanity will always remain in the same shape.

Countless Combinations

Argent Furniture is available in a spectacularly large range – with each of our collections offering different levels of customisations. Whether you're inspired by the Hamptons trend, prefer Minimalism or connect with Contemporary, Argent Furniture allows you to create your dream vanity to perfectly suit your bathroom space.

Before creating your dream vanity, you must firstly select the design – wall-hung or floor-standing.

Once the design has been established, you can select your desired brand and shape of basin. Villeroy & Boch, Bette and Argent basins are available in a range of sizes and shapes including round, oval, square, and rectangle.

The collection and range of furniture available to you will be determined by the basin you select, so once you have finalised these aspects you can select your vanity finish, solid bench top and handles.

Across each of our collections, you can choose between 30 different finishes, which includes nine painted and 21 laminated finishes. You can also choose between eight different patterns and routed fronts for painted colours. An astounding 23 solid bench top choices are available for the Luxus range, and 56 handle options are also available.

Argent Furniture deliver countless combinations of finishes, solid bench tops and handles, so that no vanity is the same. The choice is always yours with Argent Furniture.
