

Important:

1. Please inspect basin/s for any imperfections prior to installation.
2. Any suspected defect should be reported as soon as possible
3. Should any product be installed despite a fault having been found and reported, argent will not accept liability for the cost of labour to remove and install any replacement product/s
4. Ensure there is sufficient bracing/ reinforcement behind the finished wall where the basin is to be installed.
5. Mark hole positions at the desired height, refer to actual basin or basin specification sheet.
6. Drill holes for basin bolts and fix bolts onto wall into a solid substrate.

7. You may choose to install the tapware and waste assembly now for ease of access.
(This can otherwise be done after Step 8)
8. Place basin in position onto the bolts, insert plastic bushes and metal washer, and retain with fixing nut.
9. Check for security of installed basin, apply a bead of silicon along the top and sides
