

# HOMMAGE

## The Sign of a Great Era

*Timeless design elements of an important era...*

*The premium Hommage collection is characterised by the impressive linearity of its design. Inspired by early 20th century design, it brings together timeless design elements from a great era. The stepped ceramic reliefs on all of the ceramic items, coupled with a combination of real wood and marble are what lend Hommage its feeling of fascination and high quality alike.*

# HOMMAGE BASINS

Equipped with: 2 Doors, 1 Shelf, 1 Drawer

# The Classics of a Great Era...

**CeramicPlus** is the first ceramic material with a unique dirt-repellent surface. Small pores occur on the surface of conventional ceramics, allowing dirt to establish a hold. **CeramicPlus** has a low surface energy, which means the mutual attraction between dirt molecules and water is greater than the attraction to the **CeramicPlus**. Consequently, the water forms small droplets which literally roll down the drain.
