Modus E Basin Mixer

The perfect choice for public and commercial sanitary facilities

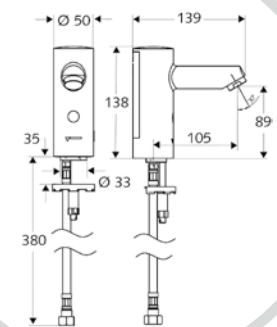

Hygiene in public, semi-public and commercial sanitary areas is becoming a major focal point for public safety. The Schell Modus electronic basin mixer has a touch-free sensor tap that automatically turns on and off. It's solenoid manufactured for 70°C water supply for 10 minutes daily to kill legionnaires disease. This makes Modus E the ideal tap for heavy use bathrooms.

It's handsfree German technology at its very best.

- Simple to use
- Hygienic handsfree function
- Vandal proof and reliable
- Adjustable sensor range
- Back flow prevention/check valves installed in tail pipes on mixer version to prevent temperature fluctuations scalding
- AS3718 tested for hot, premixed or cold water
- Optional 24 hour stagnation flush
- Made in Germany
- Nationwide 2 year parts and labour warranty
- WELS 6 star rated, 5L/min
- Mains or Battery operated versions available

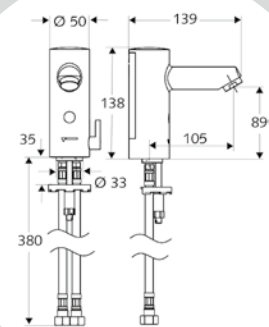

*Up to 60% water reduction in comparison to a conventional single lever basin mixer.
